Subject: SPECS for SIPs, submission of final EE Demonstrations

Thanks to the email this morning with ftp site, I have the pdf files I need to start the internal R6 formal review process for both the 2017 Exceptional Event Demonstration and 2016 Exceptional Event Demonstration.

Be aware, that, as of this morning, EPA has received the SPECS for SIPs submittal for 2017 Exceptional Event Demonstration but not for 2016. I am hoping/planning to use SPECS for SIPs submittal as the official record of submission. So sooner or later we need the 2016 Exceptional Event Demonstration to be pushed thru SPECS for SIPs – or we will need hard copy submittal by mail.

But in the meantime, I am moving on with our internal review process with the pdfs obtained from ftp site. Thanks
